See the attached revision. Mike Mendelsohn, who from OGC should we invite to this meeting? Thanks.

Charles "Billy" Smith
Acting Director
Biopesticides and Pollution Prevention Division
Office of Pesticide Programs

Yes we should reach out to OGC. Some sentences are missing periods at the end. Can we put up front what EPA's action was here and the date of issuance and taking public comment?

Tx.

Ed Messina, Esq.
Acting Office Director
Office of Pesticide Programs
Office of Chemical Safety & Pollution Prevention
U.S. Environmental Protection Agency

Subject: Oxitech Fact Sheet

All,

We put together this Oxitech fact sheet from previous materials that can be shared with Alex in preparation for Thursday's meeting. In talking with Mike and looking at the email communication forwarded from Alex, it is unclear if the FL Keys Environmental Coalition read the response to comments document that BPPD put together back in May of

2020 to address the comments received on the EUP application. In addition, we were curious if OGC participation is needed for this meeting since the FL Environmental Coalition has signed on with the Center for Food Safety's notice of intent to sue EPA over this EUP (https://www.centerforfoodsafety.org/files/2020-06-12-esa-60-day-noi-letter-final_08955.pdf).

We are not sure if Alex intends this to be a listening meeting or something more. Having this clarity would be a good thing prior to our meeting Thursday.

Thanks.
